Twilight Day 2017

These are the scenarios that were on offer during the World of Twilight Day 2017. The day starts with introductory games. Post lunch are games whose result will influence the set up for the large, final games of the day.

Morning Games

These simple games are played as introduction for the new joiners.

Chance Encounter

Your force has randomly stumbled upon the enemy and it's a case of seeing who can get the upper hand.

Scavengers

Inferno!

The Delgon have been careless with their KalGush and started a great inferno that is tearing through the forest. The various forces in the area have spotted a small hill devoid of trees that may give them refuge.

Intelligence

NuraSen Tirrel clutched the vital message tube as he ran through the forest. His bodyguards were all dead, but the flutter of leathery wings had abated and he stilled hoped he might escape the accursed trees and deliver his message. This hope was short lived as a sharp screech erupted from the trees to his left and great shape leapt towards him.

Mid-day Games

Death In The Trees!

The Enguan logging crews have been carving out great swathes of the Naralon forests. The Empire forces have tracked them down and are intent on disrupting their production.

Meanwhile, the rulers of the forest have started to close in, furious at those who have damaged their trees!

Belderaks

The Delgon have transported several of their large belderaks from the North and are moving them into position to destroy one of the large trees. Empire scouts have spotted the band of troops close to the town and must destroy the mortars at all costs before they can be got into position.

Hunters

The Big End Of Day Game

This is the final games of the day, with 8+ players around the table.

Battle For The Nest Tree!

The Delgon forces believe that they must destroy the ancient tree that seems to be the source of the plague of creatures that descend upon them.

Ohkir Sar'ain, a shaman of the Casanii has communed with the spirits of the forest and has convinced the Empire that this must not be allowed to happen.

Chance Encounter

(Twilight Day 2017)

A simple official scenario for 2 or more players, 200 to 300 points.

Your force has randomly stumbled upon the enemy and it's a case of seeing who can get the upper hand.

Set Up

Pick your Initiative Counters and then draw to see who can deploy. When your counters are drawn you can deploy one or more of your models as a single group (deploy one model and then all other models in the force within its Command Range) anywhere on the table, as long as they are at least 12" from any Enemy models.

Once all your models are deployed (excepting those with Pathfinder[S] and the models accompanying them) you can then use subsequent counters to start activating your models as normal, even if your opponent hasn't fully deployed.

Victory Conditions

Each player will flee if they lose more than half their Elites. The last player standing is the winner.

Scavengers

(*Twilight Day 2017*)

A simple official scenario for 2 or more players, 200 to 300 points.

Set Up

Each player has three loot tokens. One loot token is placed in the centre of the table. Players then take turns placing tokens at least 3" from any other tokens. Once all the tokens have been placed then Initiative Counters are drawn to deploy models. All models must be placed in groups (deploy one model and then as many other models as you like within its Command Range) at least 6" from any loot tokens and 12" from any enemy models.

Once all your models are deployed (excepting those with pathfinder and the models accompanying them) you can then use subsequent Initiative Counters to start activating your models as normal, even if your opponent hasn't fully deployed.

Victory Conditions

At the end of the game roll one dice for each token held. The player with the highest score is the winner!

Special Rules

Activation Counters: Each player gets four Initiative Counters rather than the usual six.

Loot:

- Loot tokens can be picked up and carried freely.
- Players may flee some or all of their models if they leave the table or are at least 9" from any enemy models. All Loot tokens held by these models are kept.
- Players will be forced to flee if more than half their elites are killed, in which case cast one stone for each loot token held, otherwise it is lost and removed from play. On a success the player can keep the token.
- If all other players are eliminated then the remaining player can scavenge all the loot tokens left on the table.

Inferno!

(Twilight Day 2017)

A simple official scenario for 2 or more players, 200 to 300 points.

The Delgon have been careless with their KalGush and started a great inferno that is tearing through the forest. The various forces in the area have spotted a small hill devoid of trees that may give them refuge.

Set Up

- The encounter takes place on a medium (4 x 4 feet) playing area with areas of woodland and difficult terrain.
- At the centre of the table is a small rocky hill free of trees approximately 9" across. Place five flame markers along one edge of the table, with two in the corners and the other three spaced between them.
- Draw Initiative Counters to determine who gets to deploy first. That player deploys their models in a single group (deploy one model and then all other models within its Command Range) at least 12" from the centre of the table. The other players then place their models each in a single group at least 12" from the centre and 12" from any Enemy models.

Victory Conditions

- The players are trying to take refuge on the hill before the fire consumes them.
- Any of the forces will flee if they lose more than half their Elites.
- The last force to flee is the winner.

Special Rules

Activation Counters: Each player gets four Initiative Counters rather than the usual six.

Fire! • The flame markers show how the forest fire is progressing. Each marker can be represented by a small base. At the end of each Combat Phase roll a D6 for each marker separately to determine how many inches it moves across the table.

- The line between adjacent markers is the wall of flames and any model touched or crossed by the wall of flames is immediately destroyed.
- Models may not enter the area behind the wall of fire.
- The flame markers will move around the circumference of the hill and any models on the hill are safe from the fire.

Variations

Do not place the flame markers before deployment. Once all the players have deployed their forces, number the four board sides and roll a D6 to pick the side of the board the fire will start from (re-roll rolls of 5 or 6). Alternatively, if a Delgon force is present, on a 5 or a 6 start the fire on their side of the board (after all, they started it!).

Intelligence

(Twilight Day 2017)

A simple official scenario for 2 players, 200 to 410 points.

NuraSen Tirrel clutched the vital message tube as he ran through the forest. His bodyguards were all dead, but the flutter of leathery wings had abated and he stilled hoped he might escape the accursed trees and deliver his message. This hope was short lived as a sharp screech erupted from the trees to his left and great shape leapt towards him.

Forces

Empire

Select one of the below forces:

Option 1:

- 1 x Tanaris Zelehn
- 1 x Mounted Reyad
- 4 x Light Cavalry
- 1 x Militia Captain
- 5 x Militia
- 1 x Reyad
- 4 x Slinger

Option 2:

Pick a 200 to 300 points Empire force.

Delgon

Select one of the below forces:

Option 1:

- 1 x NuraSen
- 4 x KalDreman
- 1 x KalMalog Veteran
- 2 x KalMalog
- 1 x NuraLehn
- 6 x KalGarkii
- 2 x KalDru

Option 2:

Pick a 200 to 300 points Delgon force.

Extra Miniatures

Kedashi

- 2 x Kaopi
- 21 x Frenu
- 1 x Hendreek Kelahn

Set Up

The encounter takes place on a small (3 x 3 feet) playing area in the Naralon forest, with one player using the Delgon and one the Empire. The table should have scattered patches of woodland. The Kelahn is placed at the centre of the table next to an objective marker to represent the dead priest.

The Delgon player deploys his models as a single group (deploy one model and then all other models within its Command Range) at least 18" from the dead priest. The Fubarnii player then deploys his models as a single group, opposite the Delgon and at least 18" from the dead priest. The players then each place one Kaopi accompanied by 10 frenu at least 12" from any other models.

Victory Conditions

Both players wish to recover the information the Priest was carrying. The player who can carry the information from the table wins.

Either player will flee if more than half of their elite models are killed.

Special Rules

Any non-Kedashi model that is engaging the dead priest at the start of its activation may take the information tube, which can be carried as an Object (see the Rules).

If a player is forced to flee then he removes all his models. The player who has fled then becomes the Kedashi Controller for the remainder of the game. However, he no longer receives any reinforcements.

Controlling the Kedashi Swarm:

- The Kedashi are treated as a separate force with their own set of 6 Initiative Counters. When the Kedashi counters are drawn the Kedashi Controller may choose to activate and move models using the normal rules, but may not choose to activate any Kedashi models engaged with their models. They may use the swarm manipulation ability on the Kaopi, placing any removed frenu to the side.
- Initially the Kedashi Controller is the player who has the Initiative when the stone is drawn, but the role will vary through the game. During the game every time a player kills a frenu he keeps the model.
- If a player has more frenu than their opponent then they become the Kedashi Controller. During the End Phase each player casts one stone for each frenu they have and must deploy one of their frenu for each success they cast. The frenu must be placed within the Command range of one of the Kaopi.
- If the Kedashi models are engaged with a player's models during the Combat Phase then the other player may choose to attack with them. They may use the model's abilities, but if they remove any frenu to gain Stamina then they are immediately given to the opposing player.
- If a Kaopi is killed then the player who killed it must immediately redeploy it anywhere on the table at least 12" from any Delgon or Empire models.

Battle For The Nest Tree!

(Twilight Day 2017)

A complex official scenario for 9 or more players, 900 to 1020 points.

The Delgon forces believe that they must destroy the ancient tree that seems to be the source of the plague of creatures that descend upon them.

Ohkir Sar'ain, a shaman of the Casanii has communed with the spirits of the forest and has convinced the Empire that this must not be allowed to happen.

Pick three 300 points forces, and add the below extra models:

Delgon

3 x Belderak Bombard

3 x Yirnak

Set Up

The Delgon/Dhogu forces are split into three separate detachments, each accompanied by a Belderak Bombard. These are deployed around the table, in the specified zones.

The Kedashi are deployed around the tree.

Pick three 300 points forces.

Kedashi

Victory Conditions

The Delgon win if they can destroy the tree.

Critical models: If any Critical[T] models are killed then the Delgon should feel ashamed, but they can still win the game.

Special Rules

When their Initiative Counter is drawn each side may select up to three models to activate directly. A model may use the Solo[T] ability, but only if all activated models have that Ability.

The Belderak Bombard: The Belderak Bombard may be fired at the end of the turn if they did not move and there are least two unengaged Delgon models adjacent to them.

The Tree: The Tree may be damaged by Belderak Bombard and KalGush attacks, or by models with axes. When firing at the Tree any portion of the Tree's base counts as a hit and the tree does not cast any Combat Stones in defence. The Tree has a 3+ Toughness save against attacks in combat, but receives no saves from Belderak Bombard and KalGush attacks. If 10 damage can be inflicted on the Tree then it is destroyed.

Abilities

Commander (x) [L]: Activate up to X *Friendly* or *Allied Elites, Troops, or Civilians*.
