

The Fall of Tonueil!

A complex official scenario for 4 or more players, 1080 to 1175 points.

Empire: The proud capital of Tonueil is under siege by the evil might of the Delgon and their foul Dhogu allies. You have realised that you cannot save the city, but Cren Blaak is leading a valiant mission to save several important councillors that the Delgon are keen to capture.

Delgon: The Enguan capital of Tonueil is under siege and will inevitably fall to our might, giving us total control of this region of Anyaral. Our spies have located several of the Engu leaders who are cowering near the docks. You must capture these leaders if possible, or kill them if you must.

Forces

Delgon & Delgon

Pick three 300 points Delgon forces, and add the below extra models:

Delgon

1 x Dehran

4 x KalDehran

Delgon

3 x Belderak Bombard

Set Up

The game is played on a large (4 x 6 feet) playing area.

Empire:

- Your forces are split into three detachments and deployed as instructed.
- The Councillors have been placed through the city.
- One Elite model in each of your Empire detachments can be promoted to have the CommanderL ability.

Delgon:

- Your forces are split into three separate detachments and deployed as instructed.
- You will also receive several Belderak Bombards and Dehran.
- One Elite model in each of the detachments can be promoted to have the CommanderL ability.

Victory Conditions

Empire Special Orders:

- Your forces will flee if more than half your Commanders are killed.
- You are aiming to rescue as many Councillors as possible by getting them onto the boats and away from the city.

Delgon Special Orders:

- You are aiming to capture as many of the Councillors as possible by holding them adjacent to one of your models at the end of the game.
- You will only flee if you are careless enough to let Dehran be disabled and you have lost more than half your Commanders.
- If any Critical[T] models are disabled then you may still achieve a victory, but you shall be summoned to talk to Garabon himself and I doubt that he will be forgiving.

Special Rules

When your Initiative Counters are drawn you may select up to three models to activate directly. A model may use the Solo[T] ability, but only if all activated models have that ability.

Empire:

- All Engu Troops gain the RescuerL ability.
- You may activate boats if they have at least one Engu model on board. Boats may be moved 6 inches per turn. If hit

directly by a Belderak Bombard a boat will be sunk unless it can make a 4+ Toughness save. If sunk, then all models are considered lost (except Tahela, which are excellent swimmers).

Delgon:

- All non-Beast models in your force gain the CaptorL ability.
- You may not target the Councillors with your Belderaks, unless they are on board a boat and look likely to escape.
- You may not control the boats, but you may target them with your Belderak.

Abilities

Assassinate* [A]: Fight a combat against an adjacent *Enemy* model. Neither side may benefit from Support.

Captor (x) [L]: Activate up to X adjacent *Enemy Civilians*.

Charge (x) [A]: Fight a combat against an adjacent *Enemy* immediately after this model has moved using its Basic Movement. This model may not benefit from Support but casts X additional Combat Stones. This ability may not be used if this model had to *Move Cautiously*.

Combat Trained (x) [C]: Recast up to X failed Combat Stones. Can be used once per combat.

Commander (x) [L]: Activate up to X *Friendly* or *Allied Elites, Troops, or Civilians*.

Coward [T]: If this model is forced to take a Toughness save then it must immediately make an adjacent *Friendly* model take the save on its behalf.

Critical [T]: If this model is killed then the side with this model in cannot achieve a victory.

Death From Above [R]: This attack ignores the *Engaged* and *Obstructed* conditions.

Fuel [T]: This model does not recover Stamina during the End Phase.

Haphazard (x, y) [R]: Place a Target Marker within range. Cast X Combat Stones and scatter the impact 2 inches from the target for each miss (roll a D6 to determine direction). The operating models may use their Stamina to recast stones. Place a Y" Template on the impact point: all models under the Template are hit. Leave the target in place, if the target for the next shot is within 3 inches of the target then you may recast one failed Combat Stone when rolling to scatter.

Heavy [T]: This model may be moved up to 6 inches if pulled by 3 Small models, 2 Medium or 1 Large (or larger) model, or 3 inches if pulled by 2 Small or 1 Medium model.

Impetuous [T]: This model always activates when your first Initiative Counter is drawn each Turn. This is in addition to other models you select to activate.

Influential (x) [S]: This model has X Coins which may be used before or during the game. Before the game you may spend Coins to gain access to fubarnii models that would not normally be available. One Coin allows you to recruit either two *Troop* or one *Elite* model. The models cost their normal points, but are treated as the same culture and theme as the model they are accompanying.

During the game you may spend any remaining Coins as follows:

- **Bribery:** Spend one Coin when an opponent's Activation Counter is drawn to choose which model they will activate.
- **Incentives:** Spend one Coin during the model's Activation to let up to three friendly models within Command Range gain one Stamina.

Loyalty (x) [T]: Select a *Friendly* X model in this force at the start of the game to be this model's Master. While within its Master's Command Range this model may be activated for free with the Master.

Operated (x) [R]: This model may be fired at the end of the Turn if it did not move and there are least X Unengaged *Friendly* Operators models adjacent to it.

Powerful [C]: Any blows that are landed by this model must be saved with a -1 modifier.

Protected (x) [T]: This model may be accompanied by up to X Rare[T] models.

Ranger [T]: This model may move over difficult terrain without *Moving Cautiously*.

Rare [T]: This model can only be taken to accompany a model with the Protected[T] ability.

Rescuer (x) [L]: Activate up to X *Friendly Civilians*.

Retinue (x) [T]: This model starts with one Stamina if deployed within 3 inches of X. While within 3 inches of X this model gains one Stamina during the End Phase.

Shatter [R]: This attack ignores the Sturdy[T] ability.

Solo [T]: If this model is Activated Directly then after it has activated you may return one of your Initiative Counters to the pool.

Sprint* (x) [A]: Move up to X". This ability may only be used after this model has performed a Basic Movement.

Sturdy [T]: This model cannot be targeted by Ranged Attacks.

Swim (x) [A]: This model may *Move Cautiously* through both shallow and deep water. It may move up to X" if the move is entirely within water.

Unstoppable [T]: This model moves at full rate even if forced to *Move Cautiously*, and may move through Small *Enemy* models.

Untrained [T]: This model may not be Activated Directly.

Very Tough* [S]: Re-roll a failed Toughness save.
